

### Tri-Valley Crypto Hacks Permission Slip

Tri-Valley Crypto Hacks is an extremely fun event, but it's also an event designed for mature students. Tri-Valley Crypto Hacks is not limited to coding: students will be participating in a variety of other fun activities throughout the event, including physical activities. We will also be providing food to the students, which may carry risks of allergies. While we do provide some supervision, we can not closely supervise all students at all times. **You are responsible for ensuring your student is mature enough to attend Tri-Valley Crypto Hacks.** Students who harass other attendees, cause large disruptions, damage the venue or other students' property, or violate the Code of Conduct will not be allowed to remain at the event, and you will be responsible for picking them up.
